"We are very excited about Accord's designs.

Kanabec State Bank has selected Accord Architecture and Henkel Construction Company to provide complete design-build construction services for their new banking and financial service center in Mora, Minnesota.

This new facility will help us deliver the comfort, amenities, and level of personal service we demand for our customers."

Architecturally, the new facility will be designed with a "north woods" theme. The exterior will be a combination of brick and limestone with rough sawn timber drive-thru banking and passenger drop off areas. The customer service area will be open and expansive with a large community room for local gatherings, exposed heavy timber structure, and high ceilings. The lobby will include a fully functioning fireplace, internet banking kiosks, and flat screen televisions displaying current financial news and streaming data.

President and CEO,
Kanabec State Bank**

At 14,000 square feet inside and with five teller locations, there will be plenty of room for comfortable customer service. Drive-thru customers will be pleased with their service through three individual drive-thru teller lanes and an additional drive-thru ATM as well.

Mr. Rich Schultz, President and CEO of Kanabec State Bank said, "We are very excited about Accord's designs. This new facility will help us deliver the comfort, amenities, and level of personal service we demand for our customers."

Construction started in May and the new bank is slated to open for customers in early spring of 2008.

Henkel Construction Company is a full service General Contractor and Construction Manager based in Mason City, Iowa.

Henkel builds high quality structures for commercial, institutional, heavy-highway and industrial clients throughout the Upper Midwest and, for some clients, nationwide.
